Professional Summary

Results-driven Flutter Developer with experience in developing cross-platform mobile applications using Flutter and Dart. Skilled in building scalable and maintainable applications using BLoC, Cubit, Riverpod, Provider, and GetX while applying Clean Architecture and SOLID principles. Experienced in translating business requirements into high-performance, user-centric mobile solutions with practical expertise in UI/UX implementation, interface design using Figma, and AI-powered feature integration. Proficient in developing backend services using PHP, MySQL, and cloud databases to deliver end-to-end applications, with working knowledge of Node.js, Next.js, React, and .NET.

Technical Skills

Programming Languages

Dart, PHP, JavaScript, C#, SQL, HTML5, CSS3

Frameworks & Libraries

Flutter, React, Node.js, Next.js, .NET Core

State Management

BLoC, Cubit, Riverpod, Provider, GetX

Databases & Backend Services

MySQL, SQL Server, Oracle Database, Supabase, Firebase

Software Architecture & Methodologies

Clean Architecture, SOLID Principles, Object-Oriented Programming (OOP), RESTful APIs, Agile, Scrum, SDLC

Tools & Technologies

Git, GitHub, Docker, n8n, Figma, Hive, UML, UI/UX Design, AI Integration

Work Experience & Training

Co-Founder & Full-Stack Developer

Indra Ops | Jan 2026 – Present

Co-founded a technology solutions agency specializing in cross-platform mobile applications, web development, and business process automation.

Developed and deployed scalable web applications and company landing pages using Node.js and Next.js, optimizing performance and deployment workflows.

Built workflow automation solutions using n8n, Docker, and AI-powered tools to streamline business operations and improve client service delivery.

Led the end-to-end development lifecycle of client projects, translating business requirements into scalable and maintainable software solutions while applying Clean Architecture and SOLID principles.

Collaborated with clients to analyze requirements, propose technical solutions, and deliver high-quality software aligned with business objectives.

Software Development Trainee

Revolutionary of Technology Solutions (RTS) | Oct 2025 – Dec 2025

Completed an intensive 120+ hour practical training program focused on software development, software architecture, and enterprise application design.

Gained hands-on experience with .NET Core, Object-Oriented Programming (OOP), and system modeling using UML.

Applied Clean Architecture and SOLID principles to design scalable, maintainable, and modular software solutions.

Utilized Git for version control and collaborated using Agile development methodologies.

Learned and practiced Agile Scrum concepts, including Scrum roles, sprint planning, daily stand-ups, sprint reviews, retrospectives, backlog management, and iterative software development.

Participated in collaborative development activities while gaining practical experience throughout the Software Development Life Cycle (SDLC).

Full-Stack Mobile & Web Developer Trainee

Mass Company for Artistic & Advertising Production | May 2025 – Jun 2025

Developed cross-platform mobile applications using Flutter and Dart, implementing responsive and user-friendly interfaces.

Designed UI/UX wireframes and prototypes using Figma, transforming designs into responsive Flutter applications.

Developed backend services using PHP and integrated them with mobile and web applications through RESTful APIs.

Built interactive websites using HTML, CSS, JavaScript, and React.

Completed 96 hours of practical training within the Electronic Marketing Department, contributing to real-world digital projects while collaborating in a cross-functional team environment.

Projects

kitchn AI-Sanabil (Cross-Platform Mobile App & Web Platform)

Technologies: Flutter, PHP, MySQL, GetX, RESTful APIs

Developed a cross-platform recipe application and web platform featuring categorized recipes and AI-Sanabil products.

Designed and implemented a centralized MySQL database to synchronize data between mobile and web applications.

Implemented GetX for state management and application navigation.

Deployed the platform to a cloud hosting environment to ensure reliability and scalability.

Mohma (Heavy Machinery Rental Platform)

Technologies: Flutter, Supabase, Firebase , Google Map

Developed a dual-sided mobile application connecting heavy machinery owners with customers seeking equipment rental services.

Integrated Supabase and Firebase for authentication, real-time data synchronization, and cloud data management.

Designed a scalable backend structure to support multiple user roles and service workflows.

GitHub:<https://github.com/ahmed7git/Mohma>

Iddita (E-Commerce Mobile Application)

Technologies: Flutter, Supabase, Firebase, Clean Architecture, BLoC

Developed an e-commerce application for travel and outdoor camping equipment.

Applied Clean Architecture and BLoC to build a scalable and maintainable application structure.

Integrated Supabase and Firebase for authentication, cloud storage, and inventory management.

GitHub:<https://github.com/ahmed7git/iddita>

Midyaf (Food Ordering & Delivery Application)

Technologies: Flutter, Stripe, Supabase, Firebase

Developed a restaurant ordering and delivery application with real-time order management.

Integrated Stripe payment gateway for secure online payments.

Utilized Supabase and Firebase for authentication, backend services, and cloud data storage.

GitHub:<https://github.com/ahmed7git/Midyaf>

Indra Agency (Corporate Website)

Technologies: Next.js, Node.js , React

Designed and developed the corporate website for Indra Agency.

Built frontend and backend components using Next.js and Node.js.

Deployed the website to a cloud hosting platform with performance optimization.

Live Demo:<https://indraagancy.software>

Education

Bachelor of Business Information Technology (BIT)

Faculty of Computer Science and Information Technology

International University of Technology Twintech (IUTT)

Certifications

IBM Flutter Developer Professional Certificate

IBM | Apr 2026

Elements of AI

University of Helsinki | Jun 2026

English Intermediate B1.2

Università di Napoli Federico | Jun 2026

UX/UI Design Training Certificate

Edraak | Nov 2024
